Dear Colleague:

From the producers of the annual Current Psychiatry/American Academy of Clinical Psychiatrists (AACP) Psychiatry Updates, we are pleased to present the Current Psychiatry/AACP Focus on Neuropsychiatry.

This highly practical, educational meeting will offer clinically useful information in an interactive, learning-focused format and up to 14 CME Credits, including your entire year's ABPN Self-Assessment (SA) Requirement, plus credit towards your Maintenance of Certification (MOC).

Our nationally known faculty will present recent advances and emerging trends in the treatment and monitoring of patients with neuropsychiatric disorders, and the clinical implications of neuropsychiatry will be the focus throughout.

The conference will offer an outstanding opportunity for peer-to-peer learning and networking. With frequent question and answer with faculty and panels, there is ample time to share best practices and find solutions to your most difficult clinical challenges.

The AACP is the national association which produces the CP/AACP Psychiatry Update (Chicago) and CP/AACP Psychiatry Update Encore (Las Vegas), attracting more than 1,000 participants annually. AACP members enjoy many benefits, including discount rates to attend CP/AACP meetings (including Focus on Neuropsychiatry). Visit AACP.com for complete details and to become an AACP member.

I hope you can join us in Washington, DC!

Sincerely,

Henry A. Nasrallah, MD

- 1:15 PM Dessert Break/Exhibits
- 1:30 PM PTSD
- 2:15 PM Psychopharmacology in Neuropsychiatry: Part 1
- 3:00 PM Q & A Panel Discussion
- 3:05 PM Psychopharmacology in Neuropsychiatry: Part 2
- 3:50 PM Q & A Panel Discussion
- 4:15 PM Conference Adjournment

LEARNING OBJECTIVES

At the conclusion of this activity, participants should be able to:

- Review the neuropsychiatric manifestations of epilepsy and strategies for their management.
- Review the neuropsychiatric manifestations of Parkinson's Disease and the latest strategies for their management.
- Describe the structural brain abnormalities in bipolar disorder and the effects of relapses and pharmacotherapy.
- Explain the abnormalities in brain circuits and the symptom domains of schizophrenia and the emerging new therapies for schizophrenia.
- Implement appropriate strategies to perform a Neuropsychiatric Mental Status Exam beyond the standard mental status assessment.
- Review the brain pathology that develops following severe psychological trauma and the interventions needed to address the multiple symptoms of PTSD.
- Identify the varieties of traumatic brain injury, their neuropsychiatric impact and their treatments
- Recognize the neurological roots of ADHD and their relationship to symptoms and treatments.
- Recognize and assess current and emerging neuropsychiatric findings and therapeutic options for patients with autism and its neurobehavioral manifestations.
- Explain the neurobiological effects of ketamine and how they translate into improvement in treatment-refractory depression.

ACCREDITATION INFORMATION

Jointly provided by the University of Cincinnati and Global Academy for Medical Education. The American Board of Psychiatry and Neurology has reviewed the Current Psychiatry/AACP 2018 Focus on Neuropsychiatry and has approved this program as part of a comprehensive CME program, which is mandated by the ABMS as a necessary component of maintenance of certification (MOC). The activity awards 14 *AMA PRA Category 1 Credits*™ and 8 Self-Assessment Category 1 CME credits.

Who Should Attend: This activity is designed for general, pediatric and geriatric psychiatrists, nurse practitioners, physician assistants, nurses, psychologists, social workers and other mental health professionals, and primary care clinicians interested in treating patients with ADHD, Depression, Schizophrenia, TBI, Autism, Parkinson's Disease, PTSD, and Neurodevelopmental Disorders.

ACCREDITATION

Physician Accreditation:
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the University of Cincinnati and Global Academy for Medical Education, LLC. The University of Cincinnati is accredited by the ACCME to provide continuing medical education for physicians.

Physician Credit Designation: The University of Cincinnati designates this Live Activity for a maximum of *14 AMA PRA Category 1 Credits*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Physician Assistants Credit Designation: The American Academy of Physician Assistants (AAPA) accepts *AMA PRA Category 1 Credit(s)*™ from organizations accredited by the ACCME.

TOPICS INCLUDE • ADHD • Ketamine & Depression • Schizophrenia • Bipolar Disorder • Traumatic Brain Injury • PTSD • Impulsivity & Aggression • Autism • Parkinson's Disease • The Psychopharmacology of Neuropsychiatric Disorders • The Neuropsychiatric Mental Status Exam

This activity has been approved for a maximum of 14 *AMA PRA Category 1 Credits*™ Earn credit toward your MOC!

Here's what your colleagues said about previous **Current Psychiatry/AACP meetings:**

"In general, I find this an enjoyable, relaxing conference with clinical preponderance given to lectures/presentations. Thank you."
—MC, MD; Lexington, MA

"This was my first conference with AACP, and I plan to return every year. I thought you guys did an outstanding job, and as a result I became a member."
—JK, MD; Elk Grove, CA

"You are doing an excellent job in advancing our knowledge and expertise."
—SS, MD; Harwood Heights, IL

"This was a wonderful conference. I learned so much! I feel like this catapulted my knowledge. Thank you. Please keep up the good work!"
—IR, MSN; Trevor, WI

"I enjoy this CME and obtaining MOC every year since discovery."
—TH, MD; Ann Arbor, MI
