

Ever wish you could just pick up the phone and get help caring for your complex patients with chronic pain? **NOW YOU CAN!**

Join us the 3rd Thursday of every month, noon – 1 PM
from the comfort of your own computer or smart device!

UC ECHO Chronic Pain teleconferences are free, monthly, interactive, webinar-based primary care mentoring sessions to help you with your patients with chronic pain. Experts from pain management, physical therapy, pharmacy, addiction medicine, integrative medicine and mental health will discuss, advise, and answer questions about patients with chronic pain submitted by you and your colleagues.

Each monthly session begins with a chronic pain expert presenting an evidence-based clinical pearl on treating pain in primary care. All primary care physicians, nurse practitioners, physician assistants, students, nurses, medical assistants and office staff can participate live from any internet device and ask questions or offer their own suggestions.

Join from PC, Mac, iOS or Android: <https://echo.zoom.us/j/5135585999>

Joining by phone ONLY: +1 646 558 8656 or +1 408 638 0968 (US Toll)

Participant ID: Shown after joining the meeting

Meeting ID: 513 558 5999

To submit a case for review and discussion:

- Select a patient with chronic pain for whom you would like input from the chronic pain experts. *All patient cases with any type of chronic pain are invited for discussion, not just those patients on opioids.*
- **Fill out the case submission form:** <https://redcap.research.cchmc.org/surveys/?s=PTPWNHJALJ>
- You will be notified if your case is selected and provided with further instructions.
- Present a brief summary of the case and discuss your key questions with the experts during your assigned ECHO Pain session.

If you have questions about ECHO Pain, please email susan.mcdonald@uc.edu or call 513-558-5999.

For links to past presentations, articles, and additional resources, please visit: <http://cme.uc.edu/echo-pain>

In order to maintain HIPAA regulations, remember to not share any patient identifying information during the session.

Upon completion of this course the participant should be able to:

1. Demonstrate greater comfort and self-efficacy when treating patients with chronic pain.
2. Acquire and utilize a larger variety of resources when treating patients with chronic pain.
3. Demonstrate greater knowledge and interest in improving care of patients with chronic pain.
